Basecamp Resorts Breaks Ground on Pine & Peaks East, Bringing Over 100 New Rental Homes to Revelstoke

REVELSTOKE, BC, August 10, 2026 — Basecamp Resorts celebrated the official groundbreaking of Pine & Peaks East, a new purpose-built residential rental community that will bring over 100 long-term rental homes to Revelstoke.

Located at 1702 Bend Road, Pine & Peaks East will provide a mix of studio, one-, two-, and three-bedroom homes designed to help meet the growing demand for housing in one of British Columbia's fastest-growing mountain communities. Construction is expected to be complete in Winter 2027.

The development is designed to support Revelstoke's evolving housing needs by creating professionally managed rental homes for people who live and work in the community. Residents will also have access to shared outdoor amenities, bike storage, resident storage, and on-site parking.

"As Revelstoke continues to grow, so does the need for high-quality long-term housing," said Sky Mitchell, Founder and CEO of Basecamp Resorts. "Pine & Peaks East is an important investment in the future of this community. We're proud to be creating homes that will help support residents, local businesses and the long-term sustainability of Revelstoke."

The project reflects Basecamp Resorts' continued investment in the communities where it operates, expanding beyond hospitality to help address one of the region's most pressing challenges: housing availability.

The groundbreaking ceremony welcomed community partners, project consultants and members of the Basecamp Resorts team to mark the beginning of construction.

Once complete, with anticipated completion in Winter 2027, Pine & Peaks East will offer:

- 101 total units
- A mix of studio, one-, two-, and three-bedroom homes
- Shared outdoor amenity spaces
- Secure bike storage and resident storage
- On-site resident parking

Pine & Peaks East is part of Basecamp Resorts' broader commitment to investing in mountain communities through projects that strengthen both tourism and year-round livability.

About Basecamp Resorts

Founded in 2016, Basecamp Resorts is a Canadian hospitality and real estate company focused on developing hotels, residential communities and wellness destinations across Western Canada. With a growing portfolio throughout Alberta and British Columbia, the company is committed to creating projects that support thriving mountain communities while delivering exceptional places to stay and live.
